Is your pet on the map?

The screenshot shows the 'Lost Dogs Georgia' interface. On the left is an 'Advanced Search' panel with filters for animal type (Dog, Cat, Bird, Horse, Others), status (Missing, Found, Adoptable, Back Home, Reunited, Surrendered, Rehomed, Found/Deceased), and organizations. The main area is a map of Georgia with numerous red pins indicating lost dogs. On the right, a list of pet listings is visible, including details like name, breed, age, size, and color.
